Let's Take This Word Apart!

If you've been misled by the word "premium" as applied to beer, you ought to know the real answer.

There are plenty of "premium quality" beers

—JAX is one of the best of them. But premium quality is no excuse for premium prices because it costs only a wee bit more to make a great beer than it does to make an ordinary beer.

When you see the word "premium" applied to extra-priced beer, it simply means that the beer in question has had to be shipped a long distance and that the shipping costs have been so heavy that an extra charge has had to be added to the price.

If you are really a beer lover, you know that long distance travel doesn't do beer any good. The sooner you get it after it leaves the brewery, the

JAX, the Beer of Friendship, is never shipped great distances. That's why you don't have to pay, a "premium price" for JAX. Its superb flavor is never impaired by long travel. That's why JAX always has such a full, fine, mellow tang.

So far as the word "premium" is concerned, just remember that it is usually a camouflage word to justify charging you more in order to pay ship-

JAX BREWING COMPANY, Jacksonville, Fla.

SHELLEY CONNELL

... And Air Conditioning Helped

Yes . . . without Air Conditioning production of the famous Norden bombsight would have been cut 50 per cent during the warmer months of the year.

Without "controlled weather" in war plants, our bombers could not strike such telling blows at our enemy's homeland time after time. Constant, uniform temperatures create healthy working conditions, and in assembly rooms, keep vital parts of aviation equipment from expanding and contracting, cutting rejections almost to the vanishing point.

Today . . . bombsights . . . tomorrow, better living for everyone

. . for in your House of Tomorrow

engineered Air Conditioning will be as basic a necessity as your wiring system ... something to be considered . . . planned for.

Though Air Conditioning equipment has gone to war, Belcher maintains its staff of consultants for your convenience . . . who, in addition to their war duties, will gladly work with your architect or consulting engineer to plan Air Conditioning and unit heating for your Home of Tomorrow.

Deposits on Carrier Home Air Conditioning equipment are being taken now at Belcher Industries. Orders will be filled in sequence

as soon as possible after Victory Day.
